

CALL FOR VOLUNTEERS!

10.14.09 at Marquette University

Marquette Engineering Outreach is proud to announce two special events to be held on Wednesday, 10.14.09, in conjunction with Marquette University's "Centennial Celebration of Women," and we need volunteers, lots of them! In particular, we need women engineers to assist in the workshops and discuss their career (we'll let the men come, too). In addition to assisting on 10.14, we also need help preparing for this unique event. Interested? Please complete this form and return to us by 9.30.09. We'll coordinate volunteer activities via email. Please share this with friends and colleagues.

Yes, I would like to assist Marquette Engineering Outreach promote "Women in Engineering" on 10.14.09

Name: _____ Email: _____

Address: _____

Phone: _____ Occupation: _____ Business/School: _____

When are you available to assist? Please list as a time range, e.g., 9-11am and 6-8pm:

We will prepare activities for the workshop. However, if there is an activity you would like to present please indicate below and we'll contact you.

Thanks - we couldn't do this without your assistance!

I. "Marquette Celebrates Women in Engineering" 9am-230pm Raynor Library, first floor

We will bring 100 female juniors and seniors from M7 (the 7-county region in SE Wisconsin) high schools to Marquette for presentations and workshops on engineering. The goal is to present engineering as a great career choice for young women, as well as to motivate and inspire them to become engineers. They will participate in engineering hands-on workshops conducted by Marquette Engineering faculty, students, and alumni, as well as veteran engineers from local businesses. A teacher, counselor, or administrator from each school will accompany the students; they will attend special workshops to acquire the tools necessary to advise girls on engineering careers. Celeste Baine, Director of the Engineering Education Service Center and a nationally known figure in engineering education, will provide the keynote address and assist in the workshops. There will be no charge to the participants.

Itinerary:	830-900am	Registration, networking
	900-925am	Opening remarks, introductions
	930-1025am	Workshops, Round 1
	1030-1125am	Workshops, Round 2
	1130am-1230pm	Lunch; keynote by Celeste Baine: "GIRLS RULE"
	1230-100pm	Networking; time to visit MU COE Societies, COE students & Alumni
	105-155pm	Workshops, Round 3
	200-215pm	Jon Jensen: "Preparing for College" presentation
	215-230pm	Closing remarks

II. "Bring Your Daughter to Engineering Night at Marquette" 530-8pm Olin Room 202

Parents from the area will be invited to bring their high school daughters (juniors and seniors) to learn about engineering and the career opportunities available to young women in this dynamic field. There will be a limit of 1 parent per daughter, for a total of 120 participants. Both parents and daughters will attend a special presentation by Celeste Baine. The daughters will then work with Marquette Engineering students and alumni in hands-on workshops while their parents attend a presentation on preparing for college, and the opportunities available at Marquette. There will be a nominal fee of \$20 for each parent/daughter team.

Itinerary:	530-615pm	Pizza, subs, and networking
	615-650pm	Presentation by Celeste Baine: "GIRLS RULE"
	700-750pm	Workshops for students
		Presentation for parents (Dr. Jon Jensen)
	755-800pm	Closing remarks

Q: Why special events for young women? A: Old stereotypes die hard; many young women do not view engineering as a viable career choice.
